**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 30 March 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### DETAILED ACTION

1. Claims 6-7 are presented for the examination. Claims 1-5 are cancelled.

#### *Claim Rejections - 35 USC § 101*

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claim 6 is rejected under 35 U.S.C. 101 because they are directed to non-statutory subject matter.

3. Claim 6 is directed to method steps, which can be practiced mentally in conjunction with pen and paper, therefore they are directed to non-statutory subject matter. Specifically, as claimed, it is uncertain what performs each of the claimed method steps. Moreover, each of the claimed steps, inter alia, providing, adjusting and computing, can be practiced mentally in conjunctions with pen and paper. The claimed steps do not define a machine or computer implemented process (see MPEP 21061). Therefore, the claimed invention is directed to non-statutory subject matter. (The examiner suggests applicant to change "method" to "computer implemented method" in the preamble to overcome the outstanding 35 U.S.C. 101 rejection).

#### *Claim Rejections - 35 USC § 103*

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person

Art Unit: 2194

having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 6-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Quirt et (US. Patent 6,701,382 B1).

5. As to claim 6, Quirt teaches the invention substantially as claimed including: a request (a message 408 for requesting, col 10, ln 28-29), a component judgment condition (Identifier of the entity sought, col 10, ln 32-33/ the identifier range, col 10, ln 37-40/the identifier "555-1757" is in the range, col 10, ln 45-50), a component kind (the object reference, col 10, ln 34-36), inputting a request including a component judgment condition with is used to determine a component kind (col 10, ln 29-40), an interface name( persistence name, col 10, ln 33-39), a component kind list( A portion look-up table of the name service, col 10, ln 45-60), a component kind by referring to a component kind list based on the input component judgment condition and an interface name( col 10, ln 30-39/ ln 45-50), said component kind list having correspondence among the interface name, the component kind and the component judgment condition( col 10, ln 45-60), component referring information( the fine grain object corresponding to the index. The fine grain object 406 then processes the message 420, col 11, ln 34-39 / a locate message 508, col 11, ln 50-55), a component referring information list (data structure 378, col 11, ln 35-37/ col 6, ln 16), component referring information by referring to a component referring information list based on the interface name and the acquired component kind (col 11, ln 34-38 and col 11, ln 11-16), the output the component referring information to be used in controlling the program (col 11, ln 37- 39/ ln 51-57). Quirt does not explicit teach the term acquiring. However, Quirt teaches locate/ look up (col 10, ln 47-49/ col 11, ln 34-36). It

Art Unit: 2194

would have been obvious to one of the ordinary skill in the art at the time the invention was made to apply the teaching of Quirt because Quirt's acquiring would increase the efficiency of Quirt's system by reducing the number of object references in a system such as to improve the use of resources in a software system.

6. **As to claim 7**, it is an apparatus claim of claim 6; therefore, it is rejected for the same reason as claim 7 above.

**Response to the argument:**

7. Applicant amendment filed on 03/30/2005 has been considered but they are not persuasive:

Applicant argued in substance that :

(1) “ Quirt the identifier corresponds to the object and is not a component judgment condition ”

8. Examiner respectfully disagreed with Applicant's remarks:

(2) Quirt teaches a component judgment condition (Identifier of the entity sought, col 10, ln 32-33/ the identifier range, col 10, ln 37-40/the identifier “555-1757” is in the range, col 10, ln 45-50).

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 2194

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
